Let's Build Your Packaging Together

About Us

Guangzhou Vertex Packaging Co., Ltd. — Vertex Pack — is an AI-powered one-stop packaging solution partner based in Guangzhou, China, one of the world's largest hubs for food-packaging manufacturing and trade.

We are not a factory ourselves. Instead, we have built long-term, trusted partnerships with a network of premium, certified packaging manufacturers across China. Freed from the limits of any single production line, we can offer a broad range of high-quality products — cups, bags, boxes, tableware, thermal paper and flexible pouches — under one account.

By combining AI-assisted design with strict supplier qualification and quality control, we help restaurants, tea and coffee brands, bakeries and chain operators turn custom packaging into reality — faster, more flexibly and more reliably.

Your reliable one-stop AI packaging solution supplier

Why Choose Us

AI-Powered Design

From concept to print-ready artwork, our AI-assisted mockups, rapid 3D visualization and smart layout optimization let you preview, compare and refine designs in hours, not days, while keeping colors and logos print accurate.

One-Stop, Single Partner

Cups, bags, boxes, tableware, thermal paper and flexible pouches — across six categories and 186+ items — are quoted, produced, inspected and shipped through one dedicated account, so you never juggle a dozen suppliers again.

Curated Supplier Network

We work only with long-term, audited Chinese manufacturers holding food-contact and quality certifications. Every partner is qualified in person — a curated network, never a random online marketplace.

Based in Guangzhou, China

Located at the heart of China's packaging industry, we have direct access to the leading supply chain, fast domestic logistics and major export ports for dependable worldwide delivery.

Quality First

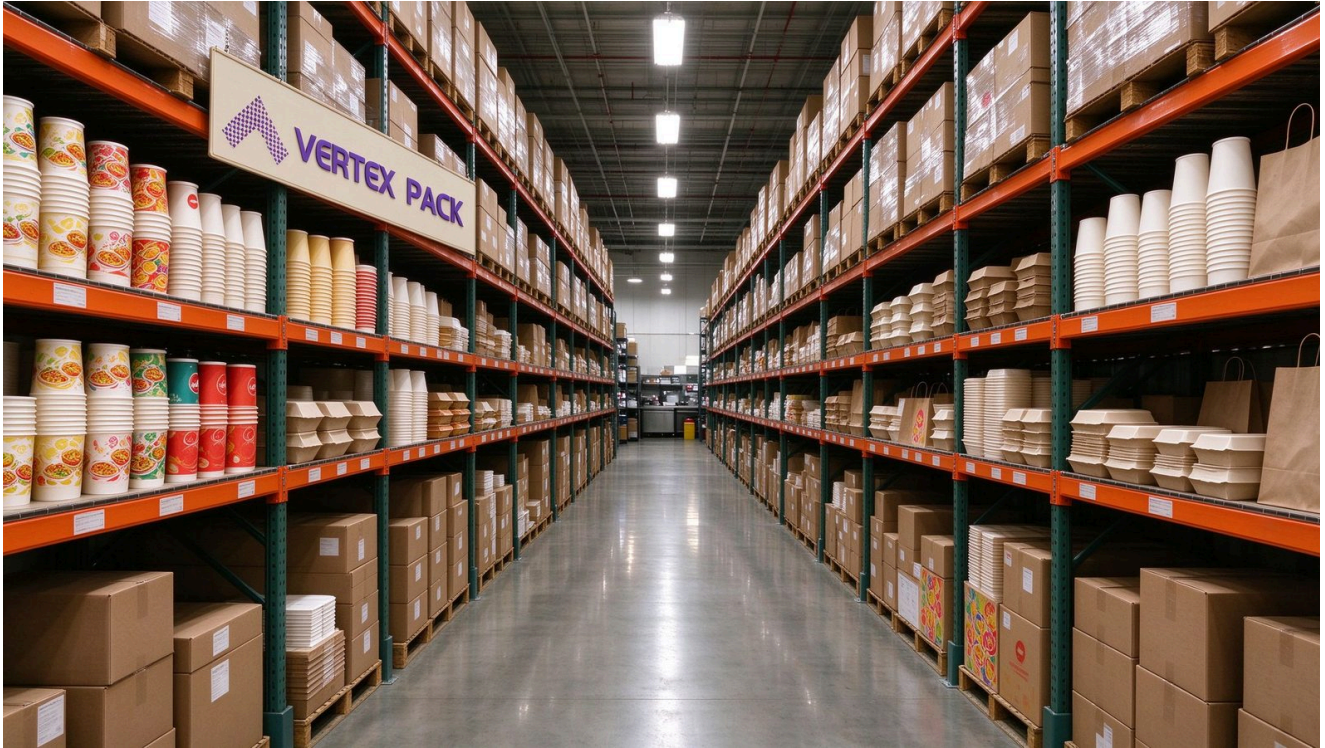

Every order goes through multi-step QC on material safety, dimensions, print color and finishing, with pre-shipment checks and photo confirmation, so the goods you receive match the samples you approved.

Service That Stays

Fast replies, flexible MOQ for growing brands and a real contact person who stays with you from inquiry to after-sales, including reorder support, artwork advice and prompt handling of any issue.

Warehouse & Showroom

Organized Warehouse

Well-stocked inventory and orderly fulfillment help keep lead times dependable.

Hands-On Showroom

Browse and compare real samples by material, size and finish before you order.
